

DAILY NEVADA STATE JOURNAL
C. C. FOWLING, Editor and Proprietor

The explanation of the rapid enhancement of the price of silver in all the markets recently given to the annual convention of the American Bankers by William F. St. John, president of the Mortgage National Bank, of New York. Mr. St. John showed that the world's average production of silver in seven years, including 1885, barely exceeded \$111,000,000. Of this some China and British India together absorbed \$63,250,000. The industrial arts of Europe and the United States consume more than \$21,000,000. It is now proposed that the Government shall purchase \$48,000,000 of silver annually. Allowing that the increase of price will stimulate production and possibly somewhat diminish the consumption. Mr. St. John estimates that we must still find \$15,000,000 annually in addition to the present production of the world in order to supply the required \$4,000,000 monthly. The conservative statisticians do not, however, assume that any such increase will be obtained. The luxurious arts demand silver more and more, and the probabilities therefore are that the demand will continue to exceed the supply and the price advance in consequence.

Commissary General of Subsistence McFeely, in his annual report submitted to-day, shows that during the year ending June 30th last, his department expended for subsistence of the army, \$2,761,594.95. The average cost of fresh beef per pound was 7.9 cents. It ranged from less than 6 cents in Alabama to 16 cents in Nevada. He recommends the enlistment of a cook for each troop, battery company and general depot of recruits, and a baker to each garrisoned post.

The President has amended the civil service rules to provide that when vacancies occur in the railway mail service the names of three eligible residents in the country of the State through or on the border of which the railway passes, on which the party to be appointed is to serve, shall be certified to the appointing power, and from the three eligible the vacancy is to be filled. Heretofore the rules only required the certification of the three highest from the eligibles living in the State in which the vacancy occurred. The rules have also been amended to allow the employment for not exceeding sixty days of experienced mail clerks without examination, but this is only to be allowed in cases of emergency, and when there are no eligibles on the list.

The blizzard in New Mexico is a phenomenal atmospheric disturbance for that section of the country. Great damage and distress will result, because the people are not prepared for severe cold weather. It is a singular fact that the mountain benches and foothills of the Territory were covered with snow all last winter, while the entire north-west enjoyed a winter of unusual mildness, with but little snowfall. The present storm tends to confirm the general belief that the atmospheric conditions of the West are undergoing radical changes.

Railroad roads have made much progress in smothering the Union Pacific North-western alliance. The Burlington and Rock Island believe that the cheapest and most effective plan is to extend their lines to the Pacific coast, and they will carry out that plan as expeditiously as they can.

The five Eastern States which rejected prohibition this year cast a total of 1,152,324 votes. Of this number 717,961 were against the proposition, or nearly two to one. These figures illustrate the value of experience as against theory.

The public debt of the United States has been reduced from seventy-eight to eighteen dollars per capita, in twenty-four years. With the possible exception of France, no nation in the world can equal this record.

Washington has entered the arena to battle for the World's Fair. With New York lagging and St. Louis dividing Chicago's strength, Washington stands a good chance of being selected as a compromise.

Captain Zallusti does not make as much noise as his gun, but he commands just as much respect from the monarchs of Europe. The captain is a highly explosive gentleman in warlike matters.

Mysterious.

There are more things in heaven and earth, Horatio, than are dreamt of in your philosophy.

HAMLEY.

Along the shore of the Onondaga lake there is an Indian's grave, which at times a weird and supernatural light makes its appearance. It is described as a ball of fire about the size of a large orange, and always to and fro in the air about thirty feet from the ground, continuing its irregular movements within a space about 100 feet square. People have attempted to go near enough to solve the mystery, but it would suddenly disappear before reaching it. A very peculiar story is told by the neighbors near the spot. They claim that many years ago the locality was the part of an Indian reservation. A man by the name of Bulken frequently dreamed that there was a crook in the Indian cemetery containing immense treasures, and if he went there at the hour when the graveyard yawn he could secure it. These dreams were repeated so often that they had a strong effect, and he went there with pick and shovel, according to instructions, but he failed to turn around three times when he found the crook, as the dream directed. He went to pick it up, but was struck by a flash of lightning, and the crook disappeared. Since that time the spot has been haunted by this mysterious light.

Guy Wilkes now has two three-year-olds with records of 2:18, which is faster than all other three-year-olds records, with the sole exception of Astell's 2:12, which latter horse was got by William L. a full brother to Guy Wilkes. "We will find again," remarks Mark Comstock, "that the great Wilkes family are not equal, any more than the Hambletonian family before them. The full brothers, Guy Wilkes and William L. have secured in three-year-old races a record worth respecting."

STANFORD'S FAST FILLY. ACCIDENT TO WOODBURN. THE WORLD'S FAIR SITE.

SUNOL MAKES A NEW RECORD FOR ALL 3-YEAR-OLD TROTTERS.

Three Records Broken and Other Events at the Bay District Track.

Special to the Journal.

SAN FRANCISCO, Nov. 9.—The lovers of the turf were given an exhibition at the Bay District track this afternoon such as never before had been seen on the Pacific Coast. The great event of the day was the performance of Senator Stanford's filly, Sunol, who made the remarkable time of 2:10, lowering the 3-year-old record of 2:12, recently made by Astell. During the last few weeks horsemen have been greatly interested in the approaching test of Sunol's capabilities, and when the filly was brought out on the track this afternoon there was a fair crowd present to witness her performance. She was accompanied by a runner during the trial. The start was made with the latter about a far-long behind. Sunol reached the quarter in 32 seconds. She went to the half in 1:05, and it then seemed certain, that, barring a break, she would succeed in breaking the record. Her time to the third quarter was 1:37. The runner pressed her closely down the stretch and Marvin, her driver, applied the whip but the colt did not make the slightest slip and passed under the wire in 2:10. When the time was announced there was wild cheering among the spectators and the enthusiasm continued several minutes.

Von Wilkes' yearling stallion record of 2:38, was also lowered this afternoon by Valentin's Faustine, who trotted the mile in 2:35. The third record lowered at the Bay District track to-day was by Regal Wilkes, who started to beat Astell's 2-year-old stallion record of 2:23. Regal Wilkes trotted the mile without a ship in 2:20. Stanbul also trotted to-day to make 2:12 on a wager made some time ago that he would accomplish the feat before the close of the year. His time to-day was 2:13, which lowers his own record by one second.

Palo Alto started to beat the stallion record of 2:12, but he broke badly on the stretch and finished in 2:12.

SILVER MEN IN COUNCIL.

The San Francisco Chronicle says:

Homer S. King has been selected by the Stock Exchange of this city as its representative to the National Silver Convention which is to meet in St. Louis on the 26th inst. The selection is a good one, and the Stock Exchange will be adequately represented.

This convention will be a very important gathering. Its purpose is to show to the people of the United States that every industry will be benefited if favorable legislation can be had for silver, and its direct aim will be to influence the new Congress, which will meet a week later. Papers will be read by Stewart, Jones, Beck, Bland, St. John and all the leading silver men of the country, and a united effort will be made to secure favorable Congressional legislation. The question of silver is attracting a great deal of attention just now because of the steady rise in price which it is exhibiting. In July last silver was quoted at 91 1/2 cents per ounce; now it is worth 100 cents, with every prospect of a still further increase in value. A recent dispatch cited the offer of a firm of bullion brokers to give \$1,000 for a three months' option on 100,000 ounces of silver at \$1 an ounce, and there will be found in monetary circles a general belief that silver is still on the up grade and bound to reach much better prices than it has commanded for a long time.

In this connection it is of interest to note the present attitude of Senator Mitchell, of Oregon, who in 1878 voted against the Bland bill. He has recently been interviewed by the Washington Post, and has said directly and positively that the already sound and rapidly expanding business of the country and increase of population imperatively demand a corresponding increase in the volume of currency, and this demand can only be met by the Government giving its hearty aid to the establishment of a financial policy based on a full, equal and unqualified recognition of both silver and gold.

Congress will certainly be called upon to take action upon the matter of the financial condition of the country and the volume of the currency, and everything indicates that the star of the silver men will be in the ascendant. There will be a well-directed effort to have the monthly purchases of silver under the Bland bill increased from \$2,000,000 to \$4,000,000, either by requiring the Secretary of the Treasury to purchase the maximum instead of the minimum; or by altering the minimum; and if this be accomplished it may lead to still further legislation in the interests of silver. The St. Louis Convention will meet at a very good time, and its proceedings will be watched with very much interest.

THE CANARD ABOUT THE VICE PRESIDENT'S LIQUOR LICENSE.

The Stanford Receptions at Vallejo and Santa Rosa—A Woman's Fatal Fall—Etc.

Special to the Journal.

CHICAGO, Nov. 9.—At the afternoon session of the Women's Christian Temperance Union Mrs. Foster arose to a question of privilege and read a telegram from General Morton concerning the charge that Vice President Morton allowed a saloon to be kept on his premises. The telegram said Miss Willard's accusation against the Vice President was without a shadow of foundation. Mr. Morton personally denounced the canard through the newspapers last week. A warm discussion followed between Mrs. Foster and Mrs. James, of Philadelphia, and a motion to lay the matter on the table was carried with cheers. Ex-Governor St. John, of Kansas, in a speech later, declared that while it was not true that Vice President Morton had taken out a license himself it was true he had given his consent to his lease, Kernan, obtaining one.

Receptions to California's Favorite Son. Special to the Journal.

VALLEJO, Nov. 6.—Senator and Mrs. Stanford were tendered an enthusiastic welcome to-day by the citizens of Vallejo. The party was met at Vallejo Junction by a committee and escorted to the city. At the Bernard House, which was decorated with flags and flowers, Dr. Friebe delivered an address, to which the Senator responded. A banquet followed, and speeches were made by Stanford, Morrow, McKenna and others. The party then left for Santa Rosa.

SANTA ROSA, Nov. 9.—Senator Stanford and party arrived here about 3 o'clock. Athenaeum Hall was crowded to its utmost extent. Mayor Byington made a brief address, and Rev. Dr. Anderson an address of welcome. The public reception was followed by a banquet at the Grand Hotel.

An Old Woman's Fatal Fall.

Special to the Journal.

NEW YORK, Nov. 9.—Elizabeth Shaw, eighty-four years old, was found dead on the piazza back of the house at No. 130 West Forty-Seventh street, yesterday morning. She fell out of a back window in the top story, the third. A dentist living next door heard a fall about 4:30 o'clock and got up, thinking his ceiling had caved in. About 10 o'clock her body was noticed by neighbors. She was then dead. Two ribs were broken, and a shoulder was dislocated. The coroner said he was satisfied the old lady had not intentionally jumped. It is supposed she had been trying to close the shutters.

Joe Coburn Fined.

Special to the Journal.

NEW YORK, Nov. 9.—Joe Coburn, the ex-pugilist and ex-convict, who, while intoxicated in July last, knocked down and brutally kicked proprietor Flynn in his restaurant at Thompson's Market, pleaded guilty to the charge at special session yesterday. The burly ruffian had Ambrose Purdy as his counsel and the latter pleaded for a light sentence. The complaint was not in court, and Coburn got off with a \$25 fine.

Omaha Mentioned in Connection With The Exposition—New York Don't Need It.

Special to the Journal.

PARIS, Nov. 9.—A cable from New York announces that in the canvass of American Congressmen as to an available site for the proposed exhibition, a plurality are in favor of Chicago as against New York. If public opinion tends towards Chicago or any other site as against New York it will be cheerfully accepted. New York is probably the one city in the Union to which the exhibition would be a loss rather than a gain. New York is an exhibition all the year round. Broadway is worth crossing the ocean to see, and Chicago, St. Louis, Minneapolis, and all ambitious towns in the west might build for centuries before they could equal the stupendous, impressive forces of nature wedded to civilization which spread from Union Square to New Rochelle. New York, as the commercial metropolis of the continent, claims the exhibition. She gave way to Philadelphia in 1876 for patriotic reasons. No such reasons exist now. While New York claims the exhibition, she does not beg for it. Supreme in her wealth, her achievements, her commercial activity, a queen among cities, looking proudly upon the seas, the conquerors of empires, and seeking for other empires to conquer. What is this or any other show to her. Naturally, if there be any ill-feeling or disappointed pride, it is heaven's name let it go to Chicago, St. Louis, Omaha, Hoboken—anywhere, so that good feeling is preserved. If the exhibition goes to Chicago, why not meet the growing sentiment of the country and send the Capital there? Washington is a mistake. It was at the outset a real estate speculation. It was captured and burned by a foreign foe, and Chilly, with our helpless navy, could capture and burn it to-morrow. Do not let us imitate our New England brethren at the time of the Hartford convention or our Southern brethren in the rebellion, and resist any honest impulse at this kind of public opinion. Give Chicago the exhibition. Let the Capital go likewise. New York will do her part to make them both a success, feeling that she is in herself an exhibition all the year around and the Capital of the continent, dowered with a supremacy which none can challenge.

Fowler from the service this celebrated army horse was presented to Chaplain Heines, of the Fifteenth New Jersey Infantry. He was in more than thirty engagements and was sired by old Rysdyck Hambletonian. He was thirty-three years old.

Catarrh

Is a constitutional and not a local disease, and therefore it cannot be cured by local applications. It requires a constitutional remedy like Hood's Sarsaparilla, which, working through the blood, eradicates the impurity which causes and promotes the disease, and effects a permanent cure. Thousands of people testify to the success of Hood's Sarsaparilla as a remedy for catarrh when other preparations had failed. Hood's Sarsaparilla also builds up the whole system, and makes you feel renewed in health and strength.

Catarrh

"I used Hood's Sarsaparilla for catarrh, and received great relief and benefit from it. The catarrh was very disagreeable, especially in the winter, causing constant discharge from my nose, ringing noises in my ears, and pains in the back of my head. The effect to clean my head in the morning by hawking and spitting was painful. Hood's Sarsaparilla gave me relief immediately, while in time I was entirely cured. I can never thank Hood's Sarsaparilla in my house as I think it is worth its weight in gold." Mrs. G. R. GIBB, 1029 Eighth Street, N. W., Washington, D. C.

A RICH REGION.

Los Angeles, Nov. 7.—A fabulously rich vein of silver has been struck in San Gabriel canyon, seven miles north of Arroyo, in Los Angeles county. It has been known for a long time, that silver existed in the canyon and mines have been worked for the past ten years with more or less success. The mines have not been worked for four or five years, and a short time ago, L. H. Washburn, general agent of the company owning the Kelsey and other mines in the district, consulted a renewal of operations. When the lode was first discovered its direction was nearly east and west, but in driving the tunnel a little over 400 feet the vein had changed to a north and south strike, and a break must have been made somewhere. Careful prospecting developed the fact that the discovery in the tunnel, was a broken spar twisted from its natural course by volcanic action, and that the true course of the lode was nearly north and south. This revelation was made in a mine called the Mint.

RESERVOIRS.

The Susanville Advocate says:

Few people are aware of the number of reservoirs now in course of construction in Lassen county alone. A perusal of the following list of such works will demonstrate the fact that Lassen county has awakened to the importance of storing its surplus water and is going about it in good earnest.

A. Gallatin, Horse Lake valley; 2; Alexander Bros., Horse Lake valley; 1; Cox & Co., Willow Creek; 1; J. W. Shanklin, Grasshopper; 3; John C. Davis, Skeddadie; 1; Ball's Canyon; E. R. Dodge, 1; Hetchinson & Leavitt, 3. One at Leavitt Lake, one at McCoy's Flat and one at Hog Flat on Susan river. E. C. Deane & Co., Red Rock, 1. Most of these reservoirs are being constructed as fast as men and money can do it. They may not all be completed, some of them are already well advanced, and it will bring in new men and new enterprise. It will make new business and put new money into circulation and everybody will get some of it.

Saturday, December 16, 1899,

Reno, Nevada, Nov. 7, 1899.

Methodist Church.

The second quarterly meeting of this Conference Year will be held in the M. E. Church to-day. Love Feast at 10 A. M. Preaching 11 A. M., followed by the Sacrament of the Lord's Supper. Rev. J. A. Bready, B. A. B. D., will preach and will deliver a lecture on Methodism in the evening at 7 o'clock. Every one who wants to know of the rise and progress of Methodism ought to hear this lecture.

Knights Masquerade.

The Knights of Honor are making elaborate preparations for their ball on Thanksgiving night. The grand march will be the most magnificent pageant that ever took place in Reno. Floats, allegorical figures, etc., will be in line. If you desire a special costume leave your order with S. Emrich. The best customer of San Francisco will be on hand.

A Good Place to Go.

Attention is directed to the new advertisement of N. P. Jacques, whose stock of hardware, etc., is of the kind usually carried in a first-class establishment. He is also a special agent for wagons, carts and a lot of No. 1 farming implements. In ploughing or gasfishing, and work of that kind, the house has no superior.

A New Lieutenant Governor.

It is expected that Governor Stevenson will appoint a new Lieutenant Governor next week, as Lieutenant Governor Chubbuck will probably resign to accept the agency of the Oakland office of Wells, Fargo & Co.

J. W. Lake has announced his name to the boot and shoe shop formerly occupied by Wm. Har, and is preparing to do all kinds of stylish work at low prices. Ladies' shoes are shown a specialty. Repairing neatly and quickly done.

Reno Guards Attention!

There will be a meeting of the Reno Guards in a hall, Nov. 11th, at 8 o'clock. By order

M. L. HOLLAND, Captain.

A Rich Region.

Messrs. Hagan and Gallagher, who have been prospecting in the Reno-Sierra district, are in town. They say the country is rich in gold, silver and other minerals, and the advent of the proposed railroad will open up the most extensive and most promising mineral belt on the Pacific Slope. Speedy and cheap transportation is all that is necessary to make it a large producer of precious metals.

Attention. O. M. Mitchell Post, G. A. R. All members of General O. M. Mitchell Post are requested to meet at their hall at 1 o'clock Sunday, Nov. 10th, for the purpose of attending the funeral services of our late comrade, Thomas G. Morgan. All sojourning comrades are requested to be present.

IDAHO'S VOTE.

An Overwhelming Majority in Favor of the Constitution.

BOISE CITY, Nov. 9.—The vote on the Constitution in this precinct was 1011, 891 for and 130 against. This county (Ada) will foot up about 1,800 votes—1,300 for and 500 against. Latah county casts about 2,300 votes, of which 2,000 will be for the Constitution. Kootenai will foot up 900 almost solid for the Constitution. Shoshone county, and the most important in the Territory, has not been heard from. Indications from all the counties heard from show that 18,000 votes will be cast in the Territory, and 15,000 will be in favor of the Constitution. This is 2,000 votes more than were cast in the Territory last Fall. Had it been an official election 20,000 votes would have been cast. This would be an increase of 4,000, which the increased population will fully warrant. This does not include 4,000 Moroneos of Idaho who are disfranchised by the Federal Constitutional oath and the Edmunds-Tucker law. It is safe to say that Idaho could cast 25,000 votes.

WHAT ON EARTH

Is the reason people will not, can not or do not see any difference in cheap nostrums put up by cheap John houses or irresponsible parties at enormous profits rather than take a medicine of world wide reputation and one that is giving universal satisfaction at all prices? No medicine in the world is giving such unparalelled satisfaction for purifying the blood as BLOOD PURIFIER and BLOOD MAKER, and every bottle that does not do its work will cost you nothing.
